

## Why build the monument?

I have often been asked what I thought of Donald Trump, if I support him or if I don't like him, many times this happens at the gas station or in the grocery store, with my friends or just in passing.

As you know it's been a big topic for people in the last 9 years or so.

People are surprised when I say I love him and I would die for him,

the President Donald J Trump, I say I would give up my life for him in an instant.

Their surprise is obvious, one because of my dedication and support for him in those words, and that I am a strong advocate and supporter, they are powerful words to say, many don't take me seriously and think that I am not serious, and the haters can't understand why I would be willing to do that or even say that, and other people are like I would too, They are like minded and i became friends with them in an instant. It's easy to say you would give up your life for another human being, it is much harder to do it. However, it's true. In my mind and in my heart, I decided a long time ago I would give up my life to save Donald J Trump's life if the situation ever presented itself.

I would do it for who he is and what he's doing for all of us and our country.

It's not that I don't value my life, because of course I do—my life is good, and people here Rely on me and also need me, and it really would be a sacrifice for them without me.

But Donald J Trump is a true patriot, and I understand who he is and why God put him here at this time, we need him now and God has forged him and been preparing him for this calling for many years, he is fighting for all of us, I understand why that bullet missed him and did not take his life.

He is making and has made many sacrifices for this country like few other men in history, he will be with them and will spend eternity in their presence, and they will be in his, with glory and honor. When that time comes.

I know he would give up his life for all of us and in this country, he has in fact proven that to all of us. How can you argue with that, as he was shot, and that has not stopped him even for one minute. Plus, he has shown no fear in the processes. In fact, I think he has had even more strength because of it.

It's the Truth. I have been shot at, and it is terrifying.

I have never personally met Donald J Trump; I have never even been able to attend one of his rallies.

So, you might think it's easy for me to say I would give up my life for him. And that's just talk but the truth is However, I know what I would be willing to do and made that decision a long time ago. He has inspired me like that, but honestly, let's be real I'm probably never going to be in that position to have that responsibility or opportunity, with that in mind I asked myself,

“What can I do? With the strong feelings that I have towards this man, how to deal with my strong urge to step up and do something, because of his inspiration and my sense of patriotism. It’s hard to sit and let other people do all they can as you sit and watch and not get involved in how you see and understand what’s going on and just sit by and do nothing especially knowing you are not wealthy you are not in those circles, and you don’t think you can do anything. Makes you Feel a bit helpless.

Maybe I can’t defend him as a lawyer or defend him against the evil people trying to destroy him, but what I can do for Donald J Trump as my sacrifice or a tribute for what he’s doing for all of us?

Thinking about it, I want to do something that is honoring his name and his accomplishments and his victory, our victory, something to help Remember him and his hard work , the sacrifices he has made and to seal his memory in stone, in a monument forever, so the younger generation will know about his life and the history of how important he was as a leader of the MAGA movement and how he will change history, how the 2024 Presidential Election will change the course of America and the world.

Well with inspiration, I have decided to build a monument, to that historic 2024 presidential election to cement in stone and to show the world what he has gone through how hard he has fought. And how important he is to the USA and the world.

And how a man overcame everything they could throw at him, indictments, benign framed, ridiculed, called so many despicable names, impeached, Rusha gate and the list goes on and on.

In coming to the realization of how important this election was, it’s as if we were going to our destruction and death, or at least the death of America, we all realize it. We have been awakened to the realities.

This is my tribute to Donald Trump. This is my legacy I will leave for him and all who took part in the 2024 Presidential election. The generations to come this is what all of us willing to take part in this monument will leave to the next generation, as all of our, legacy.

A sacrifice to give to someone who’s giving the country so much. I know that when Donald J Trump is inaugurated, and we pray he well live to that day and well take the office of the president, of the United States, he’s going to make massive changes, and save this country he will build a team of all-star people around him and quickly get things in order. I know he’ll seek out justice for those who are dishonest traitors to this country and make things right. He will work very hard like only he can, in his position as the President of the United States

I know that Donald J Trump is a man of integrity.

He has an unorthodox style, and is an old-school patriot forged from a generation that has mostly been lost, a generation I love so much, a generation that has always put the country first and themselves second. Witch is why we have it now from these patriots’ sacrifices.

I remember it when I was younger. I remember the taste of real patriotism, I am younger than Trump, but I remember men like him that would give their lives for the greater good of the United States of America, and so many have died to make this the country what it is today it is.

But it has been lost at this moment, and I want it back. I want my grandkids to have what I had and can remember.

I have a love for this country, and I know there are many people who still do. And there are many great days ahead of us with good people in places of power.

How do you say I am able to build a monument? Well, I can't do it without your help. **And I am not asking you to give your life I am asking for something much easier**, that's why I am calling on all MAGA republicans, TRUMP supporting independents, American Patriots to help to put their name on the **2024 VICTORY WALL pay \$45.00** and that is all I ask, to put your name on the wall, you are giving nothing for free, I am not asking you to do anything for free, unless you feel that need and make that choice for yourself. But if you support just putting your own name and someone you love on the wall, we will have the ability to finance the 2024 ELECTION MOUMENT and seal it in history, along with your name. Please help me to make it possible. With your help, Gods divine inspiration and strength and my Fath in him, it shall be done. With "God" we can do all things together.

So, let's build this monument to celebrate this 2024 presidential election—an election where history was made. Donald Trump is only the second president in history to split terms, and no one can deny that there's ever been a man like Donald J Trump or an election like this one in our country's history.

Help me build this monument to celebrate him,

but also, to celebrate all of us, our sacrifices, and the way we've come together to vote for him him, to save this country, We voted more for him than any other president in the history of our country.

God bless Donald J Trump, God blees all of America and God bless this 2024 ELECTION MONUMENT.

I don't get one dime of your donation all the money is to build this dream. All funds go into a trust account as according to the business plan to build the monument.
